

INTERN MANAGEMENT SYSTEM

End-to-End Internship Program Management Technology and Best Practice Advice

Our best-in-class software and nationally recognized best practices help companies deliver meaningful internship experiences that improve overall satisfaction and productivity. We partner with companies of all shapes and sizes to simplify management of their internship program, automate processes, and develop the next generation of the workforce.

Increase Your Efficiency

- Single fully-integrated platform that streamlines labor-intensive, repetitive processes
- Provides interns, managers, mentors and HR a self-serve portal that supports both traditional and virtual internships
- Track all activity and data in one central location
- Easy-to-use tools automate every aspect of your internship program

Maximize Intern Productivity

- Gamified professional development activities based on the NACE Career Readiness Competencies
- Receive best-practice strategies for meaningful intern engagement and productivity and track results real-time
- Let interns manage tasks, projects, calendar and other activities in a single, simple-to-use platform of their choice (mobile + web)

Enhance Company's Talent Pipeline

- Develop and deliver a world-class internship program that is consistent throughout your entire organization
- Build your talent pool and evaluate interns quickly and efficiently
- Increase your capacity and scale your internship program
- Get more from your current internship class and improve intern-to-full-time-hire conversation rates
